

# E7760 Release Films

**E7760** is a high modulus, matte finish, translucent release film suitable for use with all commonly used resin systems up to 400°F (205°C).

**E7760** is an excellent release film for mild contoured or flat part as this film lies down flat and smooth with little wrinkling issues as experienced with other more pliable release films. **E7760** is also a suitable alternative to our higher elongation and PVF release films.

## PHYSICAL PROPERTIES

Maximum use temperature:	400F°	205°C
Tensile strength:	> 26K PSI	12.7 Kg/cm <sup>2</sup>
Elongation:	> 100%	
Modulus:	>440K PSI	214.8Kg/cm <sup>2</sup>
Yield:	137 ft <sup>2</sup> /lb/mil	28m <sup>2</sup> /kg/25μ

## AVAILABILITY & PACKAGING

E7760 is available in .002” x 48” only at this time.

## STORAGE & HANDLING

- Store in a dry area in normal inside warehouse conditions
- Store in its original shipping container
- Do not store rolls vertical on the roll ends
- Shelf Life is 18 Months from the data of shipment
